

Trilok Moshra

MERN STACK | SOFTWARE DEVELOPMENT | PRODUCT MANAGEMENT

WORK EXPERIENCE

Sensegiz Technologies – *Belgaum, Karnataka*

06/2022 - PRESENT

Full Stack Engineer

Redesigned and evolved the complete product into a modern-day Full Stack Web Application.

- Designed the complete Web App using figma right from scratch with a modern-day design.
- Developed and coded the complete software using React as the frontend as the only React Engineer in the team single handedly.
- Collaborated for the migration of the complete database from a SQL DB to NoSQL MongoDB.
- Re-designed the backend framework from PHP to Node.js using Express API's for operations.

Coins For College - *Sacramento, California*

04/2022 – 06/2022

Full Stack Software Developer

Enhanced and developed a blockchain enabled Ed-Tech platform for schools and universities.

- Collaborated for an end-to-end SaaS-based B2C Web application with real-time capabilities.
- Analyzed systems flow, data usage and work processes, investigated 100% of problem areas.
- Redesigned custom API's with ExpressJS and MongoDB single handedly to integrate into the application for more optimised usability.

American 340B Health based Org. - *San Francisco, California*

01/2021 - 03/2022

Full Stack Developer

Developed a 340B Program based Vendor cum-reports based Web Application.

- Developed web-bots based on Puppeteer both on Node.js and Nest.ts .
- Managed the whole product development cycle on Jira.
- With the use of antd helped design React based frontend and complete Nest based backend which was an addition to my tech stack along with Postgres for db.

Freelance Consultant & Individual Contributor

03/2019 – 01/2021

Technical Consultant cum-Full Stack Developer

Maintained core applications and accomplished them from the very scratch .

- Individual Contributor to SaaS based web applications based on various Tech stacks.
- Contributed for critical bug fixes with deep debugging procedures to make the product free of any issues.

- Actively provided Technical support until the expiration of contract whenever required.
